## ABOUT ENSEARCH

**ENSEARCH** is a non-profit association of organisations, professionals, students and people with interest in learning and promoting effective ways to manage the impacts of human activities on the environment.

*ENSEARCH for a Better Environment*

Our event, the **International Conference & Exhibition-Waste Management 2019 (ICEWM2019)**, will have a specific focus on the region with its rapid growth of volumes of waste, and a complex waste composition with new and emerging waste streams as one of the prominent challenges to be addressed.

Many countries in the region have put efforts towards waste management, but, are challenged by various technology, infrastructure, financing and stakeholder participation issues.

These challenges, on the other hand, could be opportunities for which **ICEWM2019** aims to address

### WHY ARE WE DOING THIS

1. ICE-WM 2019 aims to **showcase** the best of Malaysia's environmental governance and legal framework in dealing with Wastes.
2. To bring together Industry Players, Policy makers, Implementers and the Professional Community to a common Platform to **share innovative and advanced solutions** to combat Wastes issues related to RCP
3. To provide an avenue for Captains of the Industry to come together with Interested Stakeholders to have a **collaborative dialogue** to harmonize Best Practices on issues related to RCP vis-à-vis SDG Goals.

### WHO SHOULD ATTEND

- Regional Policy and Decision Makers
- Industry Leaders & Drivers
- Regional Environmental Communities
- Environmental Professionals
- Youth Leaders/University Students
- Local Government Authorities
- Social Media Influencers
