

February 2025

Political will is rising from its recent slumbers in regard to biogas. **Paraná** in **Brazil** has declared it can be the **Saudi Arabia of biogas**, as it capitalises on its **agro-economy**; three regions of **Spain** will fast-track **biogas** expansion as 'strategic developments'; and **Vienna** has set out a **six-year plan** to turn **waste to value**. **France**, meanwhile, has developed a **New Energy Systems sector** to drive the green transition.

[Government signs protocols for the use of biogas and biomethane in road transport | Secretariat of Agriculture and Supply](#)

The State Governor of **Paraná** and **food chain stakeholders** commit to developing a **RNG renewable fuels network** across the breadbasket of **Brazil** as part of plans to decarbonise production methods.

[Biogas project investment increased 40% in 2024, industry group says | Utility Dive](#)

Investments in biogas grew by 40% in **America** across 2024, with **on-farm RNG** developments overtaking landfill and power production, says a new report from the national association the **American Biogas Council**.

[\[Initiatives\] A new strategic sector contract for the development of key industries for the transition - La Bulle des entrepreneurs - Esteval](#)

The **French government** and major **industry players** in energy decarbonisation (**valued at €50bn**) have established a **New Energy Systems sector**, and signed a strategic contract to address the development of key industries for the transition.

[Non-fossil fuels do not want to be forgotten in the strategic dialogue - TRM24.fr](#)

As the **European Commission** launches a **Strategic Dialogue on the Automotive Industry**, **business associations** representing the producers and users of **biofuels** in **France** are calling on the government to **oppose the EU's zero tailpipe** regulations in **favour of well-to-wheel analysis**.

[Oyo: High school girls produce gas from waste | adiac-congo.com: all the news from the Congo Basin](#)

High school girls in the **Congo** produced **biogas from waste**, to deliver heat and cooking gas to the school, part of the EU-funded **International Day of Women and Girls in Science**, which is committed to financing renewable energy projects in rural areas in Congo.

[GreenGasUSA and Darling Ingredients celebrate first pipeline delivery from Dublin RNG facility -February 19, 2025 at 11:41 am EST | MarketScreener](#)

GreenGasUSA and **Darling Ingredients** have celebrated the first pipeline deliveries of renewable natural gas (RNG) from a rendering facility in **Georgia, US**, hailed for reducing emissions, boosting the bottom line and closing the sustainability loop.

[Vienna's plan for waste management and waste prevention: Expansion of biogas, more recyclable materials from sewage sludge and waste](#)

Vienna sets out a six-year plan to develop a **circular economy of waste resources**, with the expansion of **biogas** and **sewage sludge treatment**.

[Gasum charts new bunker vessel delivery scheduled for 2027 | Tank News International](#)

Gasum has announced the chartering of a new state-of-the-art **LNG and bio-LNG bunker vessel**, part of its strategic ambition to expand LNG and bio-LNG availability in the **Northwestern European** maritime market.

[Topsoe and Sasol produce syncrude from biogas | Hydrocarbon Engineering](#)

A **syn-fuel pilot** project in **Denmark** has achieved a major milestone, converting **biogas** and **CO2** into **synthetic crude** using the Fischer Bosch process.

[1,615 jobs and a reduction of 509,600 tonnes of CO2: this is Castilla-La Mancha's commitment to biogas | OCLMNews](#)

Castilla-La Mancha establishes Spain's first **Regional Biomethanization Plan 2030** – forecasting **€1,425 million in private investment** and the creation of **1,615 jobs** (665 direct and 950 indirect). The region is **processing permits for 44 facilities** and seeks to reduce emissions of CO2 by 509,600 tons per year.

[Verdalia invests 21 million euros in a biogas project in Arcos de la Frontera \(Cádiz\)](#)

Verdalia Bio Arcos is to build a **€ 21 million biogas plant** in Cadiz, **Spain** – **fast-tracked** through permitting and planning under the Regional Government of Andalusia's **Project Accelerator Unit**.

[In Catalonia, biogas production plants will be considered "strategic business projects" - FÒRUM.ad](#)

Biogas production awarded **preferential status** in **Catalonia**, to deliver 2 TWh/year of biogas by 2030 – it is estimated **~12 new anaerobic co-digestion plants** should be commissioned **annually** between **2024 and 2030**.

[The Chinese want to make electricity and biogas from the garbage in Vrancea | Antena 3 CNN](#)

Chinese delegation explores possible **biogas investments** in **Romania**.

The potential of certification systems in taxation

Netherlands tax expert calls for a return of **biomethane certificates**.

PCL, Stantec selected for \$121M San Francisco biogas build | Construction Dive

San Francisco Public Utilities Commission invest in **biogas upgrading** at the city's largest **wastewater treatment** facility, awarding a **\$121M contract** to **PCL** (construction) and **Stantec** (engineering).

<https://biomassmagazine.com/articles/envitec-biogas-expands-rng-segment-for-carbon-neutral-fuel-production>

EnviTec invests over **\$50m** in **German** biogas plants to boost **bioLPG** production.

DailyNews

Botswana's Ministry of Environment and Tourism and **United Nations Development Programme** have embarked on a P20 million (\$1.5m) **biogas production and promotion** project.
